Spectrum Enterprise maintains a zero-tolerance policy on Spam for all of its Internet products and may take immediate action against users violating this AUP. Spectrum Enterprise reserves the right to impose certain limitations on use of the Service's email.

The Services may not be used to collect responses from unsolicited communication regardless of the communication's origination. Moreover, unsolicited communication may not direct the recipient to any web site or other resource that uses the Service and the user may not reference the Service in the header or by listing an IP address that belongs to the Service in any unsolicited communication even if that communication is not sent through the Service or its infrastructure.

Users may not send any type of communication to any individual who has indicated that he/she does not wish to receive messages from them. Continuing to send email messages to anyone that has expressly requested not to receive email from a User is considered to be harassment.
