

Attachment B to Spectrum Enterprise Commercial Terms of Service

Spectrum Business Voice Service, PRI/SIP Trunking Service (collectively "Voice Services")

Spectrum Hosted Voice, Hosted Voice for Hospitality, Hosted Call Center, and Unified Communications (collectively, "Hosted Communications Services")

DESCRIPTION OF SERVICES:

1. Voice Services.

(a) Spectrum Business Voice Service. If Customer selects to receive Spectrum Business Voice Service, Customer will receive voice service consisting of one or more lines or connections and a variety of features, as described more fully below and in the applicable Service Order.

(b) SIP Trunking Service. If Customer selects to receive the SIP Trunking Service, Customer will receive voice and call processing services via eight or more concurrent call paths using a Session Initiation Protocol ("SIP") connection to the Customer's private branch exchange (including any non-Spectrum switch, collectively, "PBX") or other Customer Equipment, and a variety of features, as described more fully below and in the applicable Service Order.

(c) PRI Trunking Service. If Customer selects to receive PRI Trunking Service, Customer will receive voice and call processing services via a full (23B+1D channel) or fractional (12B+1D channel) Primary Rate Interface ("PRI") connection to Customer's PBX or other Customer Equipment, and a variety of features, as described more fully below and in the applicable Service Order.

(d) Trunking Service. Trunking Service shall mean SIP Trunking Service and/or PRI Trunking Service, as applicable.

(e) Analog Lines Over Fiber Service. If Customer selects to receive Analog Lines over Fiber Service, Customer will receive voice and call processing services via an analog connection to the Customer's PBX that is equipped with an analog line card interface or other analog line-based Customer Equipment like a fax machine. A variety of features, including line hunting, are offered, as described more fully below and in the applicable Service Order.

(f) Toll-Free Service for Spectrum Trunking. If Customer selects Spectrum Toll-Free Service for use with Trunking Service, Customer will receive voice service consisting of one or more toll-free numbers and access to a variety of optional screening and routing features including:

- Origination Screening: Allows or disallows an originating call made to a single toll-free number based on the originating Number Plan Area (NPA) and/or prefix (NXX) of the caller.
- Origination Routing: Routes an originating call made to a single toll-free number to a pre-determined Direct Inward Dialing (DID) number location based on the originating NPA and/or NXX of the caller.
- Schedule-Based Routing: Routes an originating call made to a single toll-free number to a pre-determined DID number location based on the time of day, day of week or day of year.
- Percentage Call Allocation: Routes an originating call made to a single toll-free number to any of two or more pre-determined DID number locations based on the Customer's allocated traffic percentage between the DID number locations.
- Toll-Free Dialed Number Identification Service (DNIS): Provides the original called toll-free number to the terminating location, if the toll-free number/call is terminated to the Spectrum Trunking Service.

Note: Spectrum Toll-Free Service must terminate to a Spectrum Trunking Service. Not all Toll-Free Service features may be available in all areas.

(g) E911 Location Plus. If Customer operates a multi-line telephone system, and Customer selects Spectrum E911 Location Plus for use with Trunking Service, Customer has the ability to manage, and is responsible for managing, street and station level address information (e.g., floor, suite, or room number) for telephone numbers at the Service Location(s) for Customer's Enhanced 911 ("E911") address records through use of the E911 Location Plus self-service web portal. The E911 Location Plus portal allows Customer to manage its E911 location details necessary for first responders to locate end users during an emergency and is available at https://e911.spectrumenterprise.net/users/sign_in.

2. Spectrum Hosted Communications Services.

(a) Spectrum Hosted Voice Service. If Customer selects Hosted Voice Service delivered over fiber or coax, Customer will receive a combination of (i) voice service consisting of one or more telephone lines, (ii) a variety of features, and (iii) voice service technical assistance described more fully below and in the applicable Service Order.

(b) Spectrum Hosted Voice for Hospitality Service. If Customer selects Hosted Voice for Hospitality Service delivered over fiber or coax, Customer will receive a combination of (i) voice service consisting of one or more telephone lines, (ii) a variety of features, and (iii) voice service technical assistance. Customer may also receive Property Management System integration and other services, including a variety of features, as described more fully below and in the applicable Service Order.

(c) Spectrum Hosted Call Center. If Customer selects to receive Spectrum Hosted Call Center Service; Customer will receive a combination of (i) voice service consisting of one or more telephone lines, (ii) a variety of features, and (iii) voice service technical assistance, as described more fully below and in the applicable Service Order.

(d) Unified Communications Service. If Customer selects Unified Communications Service (a Webex service offered through Spectrum), Customer will receive a combination of (i) instant messaging and presence service, (ii) video calling service, (iii) desktop sharing service, (iv) conferencing, and (v) web collaboration service, or other features as described more fully below and in the applicable Service Order. Unified Communications Services may also be available in personal computer, mobile phone, and tablet application formats where features, functionalities, and capabilities will differ based on the device used to access the Unified Communications Service (i.e., "soft phone service"). If Customer or an End User accesses the Hosted Communications Services through use of an application, certain features, functionalities, or capabilities, such as two-way calling, may not be available. When using such an application, Customer and End Users are subject to the terms of such application and the terms of this Service Agreement (including this Attachment). Changes made to the features, functionalities, capabilities of the Unified Communications Service, or to an application accessing Spectrum Hosted Communications Service, shall be in Spectrum's sole discretion. Unified Communications Service is subject to availability and to the terms and conditions referenced in Section 19 of this Attachment.

BEGINNING ON JANUARY 6, 2022: If Customer ordered soft phone service on or after February 16, 2020, Customer will have 911 calling capability with its soft phone service beginning on January 6, 2022 if Customer's software and service is properly installed, configured and updated. Customer understands that such soft phone service, including 911 calling capability, will not function properly unless correct and valid address information has been entered into the soft phone service or application that reflects the application and/or associated device location. Failure of Customer to enter correct and valid address information, prior to initiation of such Service and anytime Customer's location of the soft phone changes, will likely result in a delay or inability in dispatching 911 emergency service to the proper location. CUSTOMERS THAT ORDERED ANYWHERE CONNECT SOFT PHONE SERVICE PRIOR TO FEBRUARY 16, 2020 WILL NOT HAVE 911 CALLING CAPABILITY. EACH CUSTOMER OF SUCH ANYWHERE CONNECT SERVICE UNDERSTANDS THAT IT MUST USE AN ALTERNATE MEANS, OTHER THAN SOFT PHONE SERVICE, TO CONTACT 911 EMERGENCY SERVICES. Additional important 911 use of service terms are located in paragraph 7(g) below.

(e) Unified Communications over Wireless Internet Backup. If Customer selects Unified Communications over Wireless Internet Backup Service, Customer will receive Wireless Internet Backup Service as described in the applicable Service Attachment for Unified Communications Service provided at Customer's location(s) specified in an applicable Service Order. Unified Communications over Wireless Internet Backup Service is subject to availability and the terms and conditions in the applicable Service Attachment and the applicable Service Order.

(f) Unified Communications with RingCentral. If Customer selects Unified Communications with RingCentral, Customer will receive a combination of (i) instant messaging and presence service, (ii) communication services (phone and/or video calling service with optional add-on features), (iii) desktop sharing service, (iv) conferencing, and (v) web collaboration service, as described in the Spectrum Enterprise Unified Communications with RingCentral Terms of Service and in the applicable Service Order. Unified Communications with RingCentral is subject to availability and to the terms and conditions referenced in Section 20 of this Attachment.

(g) Service Descriptions. Spectrum's Voice Services and Hosted Communications Services listed above are described in Customer's Service Order, and/or in Spectrum's usage pricing plans, online product descriptions, or other documents identified herein, as applicable, on Spectrum's website at <https://enterprise.spectrum.com/services/voice.html>.

COMMUNICATIONS SERVICES TERMS AND CONDITIONS:

Customer's use of the Voice Services and Hosted Communications Services (collectively, "Communications Service") is subject to the following additional terms and conditions:

3. Availability of Facilities and Service Modifications.

(a) Services and associated products, facilities, equipment, features and functions will be available in accordance with the terms of this Attachment, where technically and operationally feasible. The quantity of business lines for each Service Location is dependent on the technical feasibility at that specific location. Additional construction and facilities may be required to provide requested Communications Services at Customer's expense. Customer must pay for any special construction prior to the activation of service and/or cancellation of contract.

(b) Spectrum is not obligated to provide Communications Services if Customer intends to or uses the Communications Services (i) to interfere with or impair any service over any facilities and associated Spectrum Equipment or impair the privacy of any communications over such facilities and associated Spectrum Equipment; (ii) to sell, resell, sublease, assign, license, sublicense, share, provide, or otherwise utilize in conjunction with a third party (including, without limitation, in any joint venture or as part of any outsourcing activity) the Communications Services or any component or combination thereof; or (iii) in any manner that results in non-standard calling patterns or practices, including but not limited to, use of the Communications Service for high-volume auto-dialing, continuous or extensive call forwarding, high-volume telemarketing (including, without limitation, charitable or political solicitation or polling), fax or voicemail broadcasting for services with unlimited local and long distance calling plans, and PBX hacking or equipment hijacking resulting in excessive usage of long distance service (collectively, "Prohibited Use"). In addition, Prohibited Use shall include augmentation of the Communications Service or Communications Service features, in any way as to change the functionality of the Communications Service or its component features in any manner that is inconsistent with standard commercial calling patterns and practices or the terms of this Service Agreement. Such non-standard calling patterns and practices include, but are not limited to, use of three-way calling, or call forwarding, that results in unusually high traffic volumes or excessive long distance usage. A non-standard calling pattern may also include, when Customer's long distance calling minutes from (i) calls terminating to Alaska, (ii) calls terminating to Guam, (iii) calls terminating to a conference calling service operating in areas with high carrier access rates (e.g., rates that carriers pay one another for network use), or (iv) calls terminating to a chat line service, in the aggregate exceed ten percent (10%) of Customer's total long distance minutes in any one-month billing cycle

(c) Spectrum may, from time to time, offer additional Communications Service features or functionality, or discontinue certain Communications Service features or functionality. Information about these features or functions will be available at <https://enterprise.spectrum.com/services/voice.html>. These additional Communications Services, features, or functions may be subject to additional specific terms and conditions, and may be subject to change at any time by Spectrum.

4. Communications Service Limitations.

(a) Unavailable Services: Call Blocking, Fraud, and N11. Spectrum does not offer or provide certain operator-assisted services such as dial around services (10-10-XXX), pay services, and third-party billing. Spectrum may use network management practices to block calls that have unassigned, invalid, or fraudulent numbers, that are identified as spam or malicious, that have suspicious calling patterns, or as otherwise permitted by applicable law. Calls blocked using these network management practices will not be delivered to Customer. Spectrum also blocks access to calls with 900 and 976 area codes and to international chat lines. Spectrum will initiate toll blocking if Customer's excessive use of any toll has surpassed the threshold set by Spectrum and/or Customer's account is delinquent. Notwithstanding any other provision of the Service Agreement or this Attachment, Spectrum may block calls which (i) are made to certain countries, cities, or central office exchanges, or (ii) use certain authorization codes, as Spectrum, in its sole discretion, deems reasonably necessary to prevent unlawful or fraudulent use of Communications Services. In addition, certain "N11" services (three-digit dial codes such as 211) may not be available in all serving areas.

(b) Service Outages. Communications Service equipment is electrically powered and will not work in a power outage or if the required broadband connection is disrupted or not operating. In the event of power outages, the equipment, including all phones and Services connected to or powered by it, will not work. Power outages will disrupt E911 service and the use of Communications Service as the connection between a security system and central monitoring services. COMMUNICATIONS SERVICE DOES NOT HAVE ITS OWN POWER SUPPLY. IF THERE IS A POWER OUTAGE, OR IF THERE IS A DISRUPTION TO THE SPECTRUM NETWORK OR FACILITIES, COMMUNICATIONS SERVICE WILL NOT WORK. CUSTOMER ACKNOWLEDGES THAT IN SUCH CASES IT WILL NOT BE POSSIBLE TO PLACE OR RECEIVE CALLS INCLUDING CALLS TO ACCESS EMERGENCY 911 SERVICES.

(c) Security Systems and Alarm Systems. Although Spectrum will supply a connection (such as an analog line connection), that may allow the operation of Customer's existing security system, alarm system or other non -voice system (such as an elevator alarm line), Spectrum does not guarantee that any such system will be in complete operational order following the installation of Communications Service. As such, it is Customer's obligation to contact its security, alarm or other system provider to inform them of the Communications Services installation, and any change in phone number, and to request a complete operational test of their system immediately following installation of the Communications Services. Spectrum does not provide power back up and is not responsible for the operation of any Customer security, alarm, or any other system in connection with Customer Equipment and, specifically, where the Customer Equipment does not have power backup (e.g., battery backup). In addition, it is Customer's responsibility to test its system on a regular basis. Spectrum does not represent that the Service is fail-safe.

Customer is solely responsible for obtaining such testing, ensuring that such testing is completed in a timely manner, and confirming that the security system and any related Customer Equipment at the Service Location connected to the Communications Service operate properly. Customer is solely responsible for any and all costs associated with this activity. In all cases, it is Customer's responsibility to ensure that use of the Communications Service meets all applicable regulations.

(d) Prohibited Use. Spectrum prohibits the use of Communications Service as the connection between medical alert systems and a central monitoring station or a fire alarm, and Spectrum will neither connect to such services nor provide technical support for the connection.

5. Use of Services. Customer is solely responsible for: (i) prevention of Prohibited Use and unauthorized, unlawful, or fraudulent use of, or access to, Communications Services, which use or access is expressly prohibited; and (ii) administration and non-disclosure of any authorization codes provided by Spectrum to Customer. Spectrum may require Customer to immediately shut down its transmission of signals if Spectrum concludes, in its sole discretion, that such transmission is a Prohibited Use or causing interference to other customers or with other transmissions generally.

(a) Spectrum reserves the right (i) to refuse to provide, discontinue, or temporarily suspend Communications Services to or from a Service Location where the necessary facilities or equipment are not available under terms and conditions reasonably acceptable to Spectrum, or (ii) to limit or block Communications Services to and from any Service Location or the use of any authorization code, without any liability whatsoever, in the event that Spectrum detects or reasonably suspects either (a) Prohibited Use or fraudulent, or unlawful use of the Communications Services, or use of the Communications Service in violation of the Service Agreement or this Attachment, or (b) consumption of Communications Services in excess of the credit limit (if any).

(b) Customer's outgoing calls must use an active, valid telephone number assigned to Customer. Use of invalid or unassigned telephone numbers are prohibited for outgoing calls. Customer is responsible for (i) securing its Customer Equipment against placement of fraudulent calls, and (ii) ensuring that Customer Equipment is not being used for any Prohibited Use or fraudulent use or access with Communications Services. Customer shall be responsible for payment of all applicable charges for Communications Services and charged to Customer's accounts, even where those calls are originated by fraudulent means either from Customer's Service Location or from remote locations. Spectrum is not liable for any damages, including toll usage charges, Customer may incur as a result of the unauthorized use of its telephone facilities. This unauthorized use of Customer's facilities includes, but is not limited to, the placement of calls from the Service Location, and the placement of calls through Customer Equipment that are transmitted or carried on Spectrum's Network. Customer shall ensure that all uses by Customer, whether authorized by Customer or not, of the Spectrum Equipment or the Communications Services installed at the Service Location comply with all applicable laws, rules, regulations, and the Service Agreement (including this Attachment).

(c) Spectrum has the right to limit the Communications Service to reasonable quantities of minutes and messages used or consumed by Customer to prevent Prohibited Use and to maintain a high level of service for other Spectrum customers.

6. Access to Telecommunications Relay Communications Service. Telecommunications Relay Service (“TRS”) enables deaf, hard-of-hearing or speech-impaired persons who use a Text Telephone (“TT”) or Caption Telephone (collectively, “TDD”) or similar devices to communicate with the hearing population not using TDD. It also allows the hearing population not using a TT to communicate with deaf, hard-of-hearing, or speech-impaired persons who do use a TDD. Customer will be able to access the state provider to complete such calls by either dialing the applicable telephone number directly or by dialing the number 711, where available. Spectrum may bill Customer a monthly surcharge in order to fund the TRS system.

If Customer activates Custom Caller ID for Trunks or Customer utilizes its own Customer-defined dialing scheme or PBX configuration, Customer must configure its PBX to out-pulse an active, valid telephone number that is assigned to the Customer and that accurately identifies the Service Location for each outbound call handled by that PBX so that 711/TRS calls complete to the appropriate 711/TRS center.

7. 911 Services.

(a) CUSTOMER ACKNOWLEDGES THAT THE VOICE-ENABLED FIBER CONNECTION, CABLE MODEM, INTEGRATED ACCESS DEVICE (“IAD”) OR OTHER SPECTRUM EQUIPMENT USED TO PROVIDE COMMUNICATIONS SERVICE ARE ELECTRICALLY POWERED AND THAT COMMUNICATIONS SERVICE, INCLUDING THE ABILITY TO ACCESS 911 AND E911 SERVICES AND ALARM, SECURITY, AND OTHER MONITORING SERVICES, MAY NOT OPERATE IN THE EVENT OF AN ELECTRICAL POWER OUTAGE, A SPECTRUM NETWORK SERVICE INTERRUPTION, OR A THIRD-PARTY NETWORK SERVICE INTERRUPTION IF THE COMMUNICATIONS SERVICE IS PROVIDED AS AN OVER-THE-TOP OR OFF-NET (TYPE II) SERVICE USING A THIRD PARTY’S NETWORK. CUSTOMER ALSO ACKNOWLEDGES THAT, IN THE EVENT OF A POWER OUTAGE AT A SERVICE LOCATION, ANY BACK-UP POWER SUPPLY PROVIDED WITH A SPECTRUM-PROVIDED VOICE-ENABLED CABLE MODEM, IAD, OR OTHER SPECTRUM EQUIPMENT USED IN DELIVERING THE COMMUNICATIONS SERVICE MAY ENABLE SERVICE FOR A LIMITED PERIOD OF TIME OR NOT AT ALL, DEPENDING ON THE CIRCUMSTANCES, AND THAT THE USE OF A BACK-UP POWER SUPPLY DOES NOT ENSURE THAT COMMUNICATIONS SERVICE WILL BE AVAILABLE IN ALL CIRCUMSTANCES. CUSTOMER SHALL ADVISE EVERY END USER OF COMMUNICATIONS SERVICE THAT SPECTRUM VOICE-ENABLED CUSTOMER EQUIPMENT IS ELECTRICALLY POWERED AND, IN THE EVENT OF A POWER OUTAGE OR SPECTRUM NETWORK SERVICE INTERRUPTION, COMMUNICATIONS SERVICE AND 911 OR E911 MAY NOT BE AVAILABLE. CUSTOMER SHALL DISTRIBUTE TO ALL END USERS OF COMMUNICATIONS SERVICE LABELS/STICKERS (TO BE SUPPLIED BY SPECTRUM) AND INSTRUCT ALL END USERS OF COMMUNICATIONS SERVICE TO PLACE THEM ON OR NEAR THE EQUIPMENT USED IN CONJUNCTION WITH THE COMMUNICATIONS SERVICE.

(b) Customer is not permitted to move Spectrum Equipment from the Service Location in which it has been installed. If Customer moves any of the voice-enabled cable modem, IAD, or other Spectrum Equipment to an address other than the Service Location identified on the Service Order, calls from the modem, IAD, or other Spectrum Equipment to E911 will appear to E911 emergency service operators to be coming from the Service Location identified on the Service Order and not the new address. Customer shall be solely responsible for directing emergency personnel at the customer premises at each Service Location. ADDITIONALLY, COMMUNICATIONS SERVICE, INCLUDING SOFT PHONE SERVICE, DOES NOT SUPPORT 911 CALLING FROM ANY LOCATION OUTSIDE THE UNITED STATES, AND CUSTOMER AND END USERS WILL BE UNABLE TO USE OR ACCESS 911 OR E911 EMERGENCY CALLING SERVICE FROM SUCH LOCATIONS.

(c) Customer will be notified by Spectrum as to whether the Communications Service to which Customer subscribes includes the capability to support E911 service from multiple locations or from a location other than the Service Location. Customer agrees that Spectrum will not be responsible for any losses or damages arising as a result of the unavailability of Communications Service or Customer’s failure to comply with applicable E911 laws or regulations, including the inability to reach 911 or other emergency services, the inability to contact a security system or other monitoring service provider or any failure or fault relating to Customer Equipment, facilities or services, the use of third-party enterprise 911 solutions, or Customer’s attempt to access Communications Service from a remote location.

(d) In some geographic areas, Communications Service does not provide the capability to support E911 service from any location other than the Service Location. In those areas, if Customer intends to assign telephone numbers to one or more locations other than the Service Location, Customer shall obtain from the incumbent LEC, a competitive LEC, or Spectrum a local telephone line or lines and ensure that (i) the address(es) associated with the additional location(s) are loaded into the 911 database by the provider of the local telephone line(s) such that 911 calls will deliver to the 911 answering point the actual location and address of the 911 caller and (ii) all 911 calls originated from the additional location(s) are transported and delivered over those local telephone lines.

IN SUCH AREAS, CUSTOMER AGREES TO DEFEND, INDEMNIFY AND HOLD HARMLESS SPECTRUM, ITS AFFILIATES, ITS SERVICE PROVIDERS AND SUPPLIERS AND THEIR RESPECTIVE OFFICERS, DIRECTORS, EMPLOYEES AND AGENTS, FROM AND AGAINST THIRD PARTY CLAIMS, LIABILITIES, DAMAGES AND EXPENSES, INCLUDING REASONABLE ATTORNEYS' AND OTHER PROFESSIONALS' FEES, ARISING OUT OF OR RELATING TO 911 CALLS MADE BY END USERS OF THE COMMUNICATIONS SERVICE FROM LOCATIONS OTHER THAN THE SERVICE LOCATION.

(e) If Customer operates a multi-line telephone system, Customer shall be solely responsible for complying with all applicable laws and regulations for operation and use of the system and for providing accurate street and station level address information for Customer's telephone numbers. If Customer orders E911 Location Plus, (i) Customer is solely responsible for managing street and station level address information for each telephone number used with the Communications Service ("Spectrum Number") at the Service Location(s) through use of the E911 Location Plus self-service web portal; (ii) Customer will ensure the Spectrum Number associated with the applicable station is transmitted when placing a 911 call; and (iii) Customer will ensure the initial and continuing accuracy of the street and station level address information for each Spectrum Number in the E911 Location Plus web portal, and Spectrum shall rely solely on the street and station level address information provided by Customer.

Modifications to street and station level address information in the E911 Location Plus web portal may require up to 24 hours for updating. Non-Spectrum telephone numbers are not supported and may not be entered into the E911 Location Plus web portal. Notwithstanding Customer's use of E911 Location Plus, Customer is solely responsible for directing emergency personnel at its Service Locations.

(f) Customer shall not use the Communications Services, or allow the Communications Services to be used, (i) to provide 911 or E911 services; (ii) route 911 or E911 traffic to any public safety answering point, statewide default answering point, or appropriate local emergency authority or emergency responders; or (iii) for any automatic location information services related to E911 or in any other manner that would cause, or be likely to cause, Spectrum to qualify as a "Covered Service Provider" as defined in 47 C.F.R. §9.19 or any successor provision of the rules of the Federal Communication Commission. Any breach of this provision shall constitute a material breach of the Service Agreement.

(g) CUSTOMER ACKNOWLEDGES THAT SPECTRUM'S "ANYWHERE CONNECT" OR OTHER SOFTPHONE SOFTWARE OR APPLICATIONS (COLLECTIVELY "SOFTPHONE APPLICATIONS") ARE NOT A REPLACEMENT FOR MOBILE OR FIXED LINE VOICE SERVICES. SOFTPHONE APPLICATIONS DO NOT PERMIT END USERS TO MAKE 911 OR OTHER EMERGENCY CALLS. CUSTOMER SHALL PROVIDE ALTERNATIVE COMMUNICATION OPTIONS TO ENABLE END USERS TO MAKE 911 AND OTHER EMERGENCY CALLS WHEN USING SPECTRUM'S SOFTPHONE APPLICATIONS.

BEGINNING ON JANUARY 6, 2022: Notwithstanding the preceding paragraph, if Customer ordered soft phone service and/or a Softphone Application on or after February 16, 2020, Customer will have 911 calling capability with its soft phone service or Softphone Application beginning on January 6, 2022 if Customer's software and service is properly installed, configured and updated. Customer understands that such soft phone service and Softphone Application, including 911 calling capability, will not function properly unless correct and valid address information has been entered into the soft phone service or Softphone Application that reflects the application and/or associated device location. Customer further understands that such soft phone service and Softphone Application will not function or will not function properly: (i) if a user attempts a 911 call from a location different than the address provided in the soft phone service or Softphone Application; (ii) during any disruption of power or Internet connectivity at the user's location; (iii) during any period of services or E911 outage or failure beyond Spectrum's control; (iv) if incorrect or invalid address information is provided or if such information is not updated by user in the event of a change in user's location; (v) if user's equipment fails to function, is not properly configured, or is defective; or (vi) if instructions, requirements or obligations for proper operation of the soft phone service or Softphone Application are not executed completely and properly.

8. Custom Caller-ID (Voice Services only). If Customer activates Custom Caller ID for Trunks, which permits a customer to define the telephone number that Spectrum makes available to call recipients for Caller ID purposes, the telephone number chosen must be an active, valid telephone number that is assigned to Customer. Custom Caller ID for Trunks may be used only where Customer employs Customer Equipment that ensures that 911 and other emergency calls placed by an end user are routed to an appropriate public safety answering point or other responding agency based on the caller's location, in a manner consistent with applicable law. If Customer activates Custom Caller ID, they must configure their PBX to out-pulse an active, valid telephone number that is assigned to the Customer and that accurately identifies the Service Location for each outbound call including TRS, 711, and emergency 911 calls to be handled by that PBX. By activating Custom Caller ID for Trunks, Customer represents and warrants that it employs such a Customer Equipment solution and agrees to continue using such a solution until Customer discontinues its use of Custom Caller ID for Trunks.

Telemarketers or other entities using Custom Caller ID for Trunks must comply with applicable federal and state laws, including obligations requiring identification of: (i) the telemarketer or the party on whose behalf the telemarketing call is made and (ii) the calling party's number ("CPN"), automatic number identification ("ANI"), or customer service number of the party on whose behalf the telemarketing call is made.

The use of incorrect or fictitious CPN, ANI, or other calling party information on such telemarketing calls is prohibited. Custom Caller ID for Trunks may not be used by any person or entity in connection with any unlawful purpose. Customer shall provide proof of telephone number assignment (e.g., by business agreement or evidence the user has access to use the number) upon Spectrum's request.

9. Trunking Service Features. The following features are available for purchase with Spectrum Trunking Service, as described in the applicable Service Order:

- (a) Cross Rate Center Numbers. Customer may order telephone numbers that are associated with a rate center(s) that is different than the Customer's physical location where Spectrum Trunking Service is installed ("Cross Rate Center Numbers"). Calls (excluding E911 calls) from Cross Rate Center Numbers are rated and routed based upon the rate center (i.e., location) where the Spectrum Trunking Service is installed. E911 calls are routed based upon the Customer's physical location at the time of the E911 call.
- (b) Centralized PBX Support. Customer may order telephone numbers that are associated with a physical Customer location(s) that are different than the Customer's physical location where Spectrum Trunking Service is installed (i.e., "Remote Sites"). Calls (excluding E911 calls and associated 911 fees) from a Remote Site are identified, rated, and routed based upon the address and rate center of the Remote Site. E911 calls are routed based upon the Customer's physical location at the time of the E911 call.

10. Access. Customer agrees to provide Spectrum and its authorized agents with access to Customer's internal telephone or local area network wiring at the network interface device or at some other minimum point of entry in order to facilitate the installation and operation of Communications Service over existing wiring. Customer hereby authorizes Spectrum to make any requests to Customer's landlord, building owner and/or building manager, as appropriate, and to make any requests to other or prior communications service providers, as necessary and appropriate, to ensure that Spectrum has all access to inside wiring and cabling necessary and sufficient to efficiently and securely install Communications Service and all related Spectrum Equipment. The agents and employees of Spectrum shall have the right to enter the Service Location at any reasonable hour for the purpose of installing, inspecting, maintaining, or repairing Spectrum Equipment, instruments and/or lines, or upon termination of the Communications Service, for the purpose of removing such Spectrum Equipment, instruments, and/or lines. Communications Services are offered to businesses only and are not available for residential use.

11. Customer Equipment. Spectrum's obligation is to provide Communications Services to the customer-accessible interface device or equipment installed by Spectrum at the Spectrum Network Demarcation Point at the Service Location. The "Demarcation Point" is the point of interconnection between the Spectrum Equipment or other facilities and the wiring at the Service Location. Customer is responsible for ensuring that all such Customer Equipment conforms to the Federal Communications Commission's requirements set forth in Part 68 of the Code of Federal Regulations (as amended), and Spectrum may discontinue the provision of Communications Services to any location where Customer Equipment fails to conform to such regulations.

Without limiting the foregoing, in the event that Customer-provided fiber, coax, copper wiring, and/or point-to-point wireless, or a segment of the foregoing provided by Customer, (collectively "Customer Facilities") are used in the delivery of Communications Services, Customer shall be solely responsible for the condition, performance, maintenance, repair, and replacement of such Customer Facilities, at all times. Upon request, Customer shall provide Spectrum with access to the Customer Facilities, for Spectrum to inspect the condition of Customer Facilities prior to Spectrum's installation of the Communications Service, provided that Spectrum shall not be required to conduct such inspection, and such inspection or statements made by Spectrum in connection therewith shall in no way constitute a representation, warranty or guarantee that the Customer Facilities are fit for use with the Service. Notwithstanding anything in the Service Agreement to the contrary, Spectrum shall not be liable or responsible, nor shall it provide Service Credits under any Service Level Agreements, for any Service delays, disruptions, degradations, repairs, maintenance, failures or any other Service issues caused by or resulting from Customer Facilities.

Customer shall be solely responsible for satisfying all legal requirements for interconnecting Customer-provided terminal equipment or communications systems with other provider's facilities, including, without limitation, application for all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection. Satisfaction of all legal requirements, any interface equipment or any other facilities necessary to interconnect the facilities of Spectrum and other providers must be provided at Customer's sole expense.

12. CPNI. As a provider of telecommunications and interconnected VoIP services, Spectrum takes seriously its responsibility to protect the confidentiality of its customers' proprietary network information ("CPNI"). Spectrum is committed to protecting its telecommunications and interconnected VoIP service customers' CPNI in accordance with applicable regulatory and statutory requirements. CPNI is customer-specific data that is collected by Spectrum in the course of providing telecommunications or interconnected VoIP services to its customers, and includes information relating to the quantity, technical configuration, type, destination, location, and amount of telecommunications and interconnected VoIP service usage by Customer, and information contained in Customer's bills that is obtained by Spectrum pursuant to its provision of telecommunications or interconnected VoIP service. Customer CPNI will be protected by Spectrum as described herein, in the Spectrum Privacy Policy and in accordance with applicable federal and state requirements. Notwithstanding anything else in this Service Agreement, the following shall not be CPNI: (i) Customer's directory listing information (i.e., Customer's name, address, and telephone number), and (ii) aggregated, deidentified and/or compiled information that does not contain individual customer characteristics, even if CPNI was used as a basis for such information.

(a) Spectrum may use and disclose Calling Details and CPNI when required by applicable law.

(b) Spectrum may use Calling Details and CPNI and share (including via email) Calling Details and CPNI with its partners and contractors, as well as with Customer's employees and representatives, without Customer consent: (i) to provide services and bills to Customer; (ii) pursuant to applicable law; (iii) to protect the interests of Spectrum, Customer and related parties in preventing fraud, theft of services, abuse, harassment and misuse of telephone services; (iv) to protect the security and integrity of Spectrum Network systems; and (v) to market additional Spectrum services to Customer that are of the same category as the services that Customer purchases from Spectrum.

(c) Spectrum will obtain Customer's consent before using Calling Details or CPNI to market to Customer Spectrum services that are not within the categories of Services that Customer purchases from Spectrum. Customer agrees that Spectrum will not be liable for any losses or damages arising as a result of disclosure of Calling Details or CPNI in accordance with the terms of this Attachment.

(d) Spectrum will respond to Customer requests for Customer Calling Details only in compliance with Spectrum's then-current authentication requirements and applicable law. Such authentication requirements may require Customer to obtain a secure password, which may be required for both online and telephone requests for Calling Details. Spectrum will notify Customer of any requests to change account passwords, activate online account access, and change Customer's account address of record. Spectrum may provide such notice by voicemail, by email or by regular mail to Customer's prior account address of record.

(e) Customer may identify a person or persons who are authorized to request Calling Details by executing an Agency Letter provided by Spectrum upon request. Customer is responsible for: (i) ensuring that Spectrum receives timely notice of any changes to the list of authorized individuals identified in the Agency Letter.

Spectrum will not be liable to Customer for any disclosure of Calling Details (including CPNI) that occurs if Spectrum has complied with the Agency Letter.

(f) Provided that Customer is served by at least one dedicated Spectrum representative under this Attachment B, Spectrum may use any one of the authentication methods specified below to confirm that a person seeking Customer CPNI (including, without restriction, call detail records) is authorized to receive it.

(g) Spectrum will not be liable to Customer for any disclosure of CPNI (including call detail records) that occurs if Spectrum has complied with one or more of these authentication methods.

- Agency Letter. As provided in paragraph 12.e, Spectrum may provide CPNI to any individual pursuant to the terms of an Agency Letter.
- Circuit ID. Spectrum may provide Customer CPNI to an individual that correctly identifies a Customer Circuit ID—i.e., a Spectrum-specific identifier assigned to a data or voice network connection between two locations.

- Premier Code. Spectrum may provide Customer CPNI to an individual that correctly identifies Customer's Premier Code— i.e., a 4-digit code that Spectrum may provide to Customer.
- Security Code (CPNI code). Spectrum may provide Customer CPNI to an individual that correctly identifies the account's security code – i.e., a 4-digit code that Spectrum may provide to Customer.
- Last 4 digits of any MAC addresses listed on account. Spectrum may provide Customer CPNI to an individual that correctly identifies the last 4 digits of the MAC address of any Spectrum-issued device listed on the account – i.e., a cable modem, telephony equipment, set top boxes, etc.
- Full serial number of any piece of Spectrum Equipment on Customer's account. Spectrum may provide Customer CPNI to an individual that correctly identifies the full serial number of any Spectrum-issued equipment listed on the account - i.e., a cable modem, telephony equipment, set top boxes, etc.

Spectrum reserves the right to add, remove, or alter these authentication methods in its sole discretion.

In the event of a conflict or inconsistency between the CPNI terms in this Attachment B and the remainder of the Service Agreement, the CPNI terms in Attachment B shall control.

13. Directory Listings. Spectrum will facilitate the inclusion of its business customers in alphabetical white and yellow pages directories and/or electronic compilations, as requested and available in Spectrum's service area. These listings are intended as a resource for interested parties who can use them to find the telephone numbers of Spectrum customers who subscribe to Communications Services. Spectrum, in its sole discretion, may limit the length of any listing in a directory or electronic compilation by abbreviating the listing. Listings may be subject to additional rules and restrictions. Toll free and private number service may be available to Customer for an additional charge. A listing may be omitted from a directory or electronic compilation upon Customer's request.

IN THE EVENT THAT A MATERIAL ERROR OR OMISSION IN CUSTOMER'S DIRECTORY LISTING INFORMATION, REGARDLESS OF FORM, IS CAUSED BY SPECTRUM, CUSTOMER'S SOLE AND EXCLUSIVE REMEDY SHALL BE A SERVICE CREDIT IN AN AMOUNT SET BY SPECTRUM'S THEN-CURRENT STANDARD POLICIES OR AS PRESCRIBED BY APPLICABLE REGULATORY REQUIREMENTS, IF ANY. SPECTRUM SHALL HAVE NO OTHER LIABILITY FOR ANY ERROR OR OMISSION IN ANY DIRECTORY LISTING INFORMATION.

14. Usage Rates/Minute Packages. Communications Services may be subject to usage pricing plans or minutes of use packages that apply charges for certain calls, including international calls and inbound toll-free calls. Unless otherwise specified in Customer's Service Order or Contract, usage pricing plans or packages are available for (i) Trunking Service at enterprise.spectrum.com/services/voice/enterprise-trunking/rates.html (ii) Unified Communications at enterprise.spectrum.com/services/voice/unified-communications/rates.html and (iii) Unified Communications with RingCentral at <https://enterprise.spectrum.com/services/voice/unified-communications/unified-communications-with-ringcentral.html> (including SMS/MMS plans and The Campaign Registry (TCR) requirements).. Spectrum reserves the right to change its usage pricing plans and packages at any time.

15. Number Porting. Upon submission of a Service Order, Customer may port a telephone number within the rate center for its particular Service Location, or a toll-free number from an existing toll-free service provider, to Spectrum for use with Communications Services. Customer represents and warrants that it has all necessary rights and authority for any porting request, will provide copies of letters of authority authorizing the same upon request, AND SHALL INDEMNIFY, DEFEND AND HOLD HARMLESS SPECTRUM AND ITS AFFILIATES FROM ANY THIRD-PARTY CLAIM RELATED TO OR ARISING OUT OF ANY PORTING REQUEST.

Spectrum shall coordinate telephone number porting with Customer's former local service provider ("FLSP") or former toll-free service provider, as appropriate, using the operational process for coordinating telephone number porting as prescribed by the appropriate regulatory authority.

Spectrum may receive requests to port a telephone number currently assigned to Customer to a third -party service provider. Customer agrees that until such time as the porting process has been completed and no further traffic for any ported telephone number traverses the Spectrum Network, Customer shall remain bound by the terms of the Service Agreement and this Attachment (including, without limitation, Customer's obligation to pay for any applicable Services) for any and all traffic which remains on any Customer telephone numbers.

Notwithstanding the foregoing, Customer shall notify Spectrum at least five (5) business days in advance of Customer requesting more than twenty (20) telephone numbers to be ported from Spectrum to another service provider. Customer has no property right in telephone number(s) or any other call number designations associated with the Communication Services, and Spectrum may change such numbers as deemed necessary.

16. Call Redirect. If a PRI Service, Analog Lines over Fiber, or Hosted Communication Service Customer elects to redirect calls to an alternate number and if the receiving telephone number is charged as long distance, charges will be applied against Customer's MOU package on the account or, if exceeded, at the applicable long distance rates.

17. Dedicated Fiber Internet Bundles. If Customer purchases a discounted bundled offering from Spectrum including a SIP Trunking Service or Hosted Communications Services combined with Spectrum Dedicated Fiber Internet, Customer must have the Trunking or Hosted Communications Service installed and billing within four months after the provisioning and turn-up of the bundled data circuit.

The monthly recurring charge will revert to the non-bundled rate for the installed service if Customer fails to accept both Services within this timeframe.

18. Unified Communications Service Data. Spectrum and any third-party service provider Spectrum uses to provide Unified Communications Services may use Customer data provided to such service provider in the course of the performance of the Unified Communications Services, including but not limited to any personal data of Customer's employees ("UCS Data"), other than content transmitted by the Unified Communications Services, to (a) communicate with Spectrum or Customer, and (b) administer and/or perform this Service Agreement, any Service Order, and/or any agreement between Spectrum and such third-party service provider. Spectrum and such service provider may access or disclose UCS Data and related information, to: (i) satisfy legal requirements, comply with the law or respond to subpoenas, warrants or court orders, or (ii) act on a good faith belief that such access or disclosure is necessary to protect the personal safety of Spectrum's or such service provider's employees, customers or the public.

19. Webex End User Terms for Unified Communications Services. In addition to the terms of this Service Agreement, this Attachment, and any applicable Service Order, when using Webex products or services offered through Spectrum, Customer and each End User agrees and accepts Cisco's applicable Webex terms, including the following:

- (i) Cisco Privacy Data Sheets available at: https://trustportal.cisco.com/c/r/ctp/trust-portal.html#/customer_transparency, and
- (ii) Cisco End User License Agreement for the Cisco client software installed by Customer or End User and for the cloud services used by Customer or End User available at www.cisco.com/go/eula.

20. Description of RingCentral Services.

(a) Unified Communications with RingCentral ("UC with RingCentral") is a cloud-based voice service with features provided by RingCentral and offered to Customers by Spectrum Enterprise. If Customer selects UC with RingCentral Service, Customer will receive a combination of (i) instant messaging and presence service, (ii) communication services (phone and/or video calling service with optional add-on features), (iii) desktop sharing service, (iv) conferencing, and (v) web collaboration service. UC with RingCentral services may also be available in personal computer, mobile phone, and tablet application formats where features, functionalities, and capabilities will differ based on the device used to access the Unified Communications Service (i.e., soft phone service). If Customer or an End User accesses UC with RingCentral through use of an application, certain features, functionalities, or capabilities, such as two-way calling, may not be available. When using such an application, Customer and End Users are subject to the terms of such application and the terms of Spectrum's Service Agreement, including the UC with RingCentral Terms of Service. Changes made to the features, functionalities, capabilities of UC with RingCentral, or to an application accessing UC with RingCentral, shall be in Spectrum's sole discretion.

(b) RingCentral End User Terms. RingCentral, Inc. ("RingCentral") is the underlying provider of UC with RingCentral Service. In addition to the terms of this Service Agreement, this Attachment, and any applicable Service Order, when using RingCentral products or services offered through Spectrum, (i) Customer and each End User is subject to the Spectrum Enterprise UC with RingCentral Terms of Service, (ii) Customer and each End User agrees and accepts RingCentral's applicable End User terms, which are contained in the Spectrum Enterprise UC with RingCentral Terms of Service available at <https://enterprise.spectrum.com/legal/unified-communications-with-ringcentral-terms-and-conditions.html>, and (iii) such End User terms shall constitute a binding agreement between RingCentral and Customer and/or each End User.

(c) HIPAA and Business Associate Agreement. This paragraph applies if Customer is a Covered Entity or Business Associate under HIPAA. If Customer is a Covered Entity or Business Associate, and intends to create, receive, maintain or transmit protected health information (“PHI”) through the use of the UC with RingCentral Service, Customer agrees that it shall notify Spectrum, and the parties shall enter into Spectrum’s Business Associate Agreement. As used herein, “HIPAA” means the Health Insurance Portability and Accountability Act of 1996, as amended, and its implementing rules and regulations; and “Covered Entity,” “Business Associate,” and “protected health information” shall have their respective meanings as defined by HIPAA.
