In 2012, Chris Roberts, CEO of Cloud Imperium Games (CIG), set out to build his dream video game, Star Citizen. A simulation that unfolds in a persistent universe. To bring his vision to life, Roberts leveraged robust network infrastructure to unite a large community of fans and top-notch talent from around the globe.

A COMMUNITY THAT IMPROVES—AND FUNDS—THE GAME
Star Citizen's massive and loyal fan base has been key to CIG's success. Thanks to CIG's, the CIG team can have real-time interactions with their community for collaborative design and development of the epic game.

GLOBAL STUDIOS CONNECTS TOP TALENT FROM THE U.S., UK, AND GERMANY—EACH WITH ITS OWN SECURE PRIVATE VPN.

RESEARCH DEVELOPMENT TEAM THAT RUNS ON GIGABIT FIBER

A COMMUNITY THAT IMPROVES—AND FUNDS—THE GAME

One of the tenets of the company is that we were going to go where the talent is, instead of making the talent come to us,” says Cloud Imperium Games CEO, Chris Roberts. The result? They have access to “a quality of people we wouldn’t be able to pull our own just of one concentrated location.”

As you picture the future state of your business, anything seems possible. With the right technology connecting your organization, team members, and audience to each other, your business vision is unlimited—and so is your potential.
