## SECURITY

Protect your organization and help defeat emerging threats with multi-layer protection and dedicated support available 24/7/365.

## REMOTE WORKFORCE

Achieve more effective collaboration and boost productivity wherever work happens.

## CUSTOMER AND EMPLOYEE EXPERIENCE

Stay ahead of future connectivity demands and deliver digital communications with secure, seamless experiences across applications.

## BUSINESS CONTINUITY

Avoid unexpected disruptions with a 100% uptime service-level agreement guarantee<sup>1</sup> and fully managed solutions.

## BUSINESS GROWTH

Scale, evolve and prepare for tomorrow with tailored solutions that grow with your organization.

## SECURITY

# Protect your critical data, people and reputation

New cyberthreats emerge constantly with an increasing number of network endpoints expanding your potential attack surface. It's crucial for your IT team to stay ahead of the risk. Find the help you need with our in-depth cybersecurity expertise and intuitive, flexible managed services. Spectrum Business security solutions are monitored 24/7/365 and kept up to date for you. We provide redundant layers of protection to help keep attacks from impacting your business.

**REMOTE WORKFORCE**

# Adopt technology that makes the world your workplace

Collaboration should happen naturally — wherever it takes place. We deliver communication and networking services that support team-driven innovation and provide reliable access to the tools that empower a remote workforce. Spectrum Business workforce solutions include a full suite of technology services that securely support your operations with a 100% uptime service-level agreement guarantee.<sup>1</sup> These include voice and video calling, messaging, meetings and content sharing with our unified communications applications. Our solutions can also offer giving remote employees secure access to your network wherever they work.

## CUSTOMER AND EMPLOYEE EXPERIENCE

# Exceed expectations with a trusted, national provider

Creating cohesive, consistent experiences across multiple platforms for your customers and employees can be challenging. Spectrum Business delivers compatible enterprise-grade technology to manage this complexity including high-performance connectivity with speeds up to 100 Gbps. Our flexible, scalable customer and employee experience solutions seamlessly integrate internet and networking, voice, collaboration and TV services so your business can easily adapt to new trends and opportunities.

## BUSINESS CONTINUITY

# Build a plan and strengthen your resilience

Natural disasters, fires or even a fiber cut from nearby construction can have a devastating impact on your business. Ensure your network is resilient and reliable to keep your data safe and your business connected through the unexpected. Spectrum Business business continuity solutions are designed to minimize disruptions with proactive backup services and a 100% uptime service-level agreement guarantee.<sup>1</sup> Our solutions have the flexibility to meet your needs as usage increases and are reinforced by local technicians, available 24/7/365 to identify, deliver and implement the support you need.

**BUSINESS GROWTH**

# Make the most of new opportunities

Embrace your organization's growth by adopting new technologies that empower your team and your network to keep pace with your business ambitions. Our flexible, collaborative approach can help you plan for the future with a single partner. Spectrum Business tailors solutions to meet your goals, with the agility to adapt as conditions change. Starting with design and implementation, our certified experts will help you stay on top of emerging technologies and provide ongoing support.

One partner  
for your  
potential

1. 100% uptime SLA guarantee applies only to Dedicated Fiber Internet, Secure Dedicated Fiber Internet, Ethernet Services, Cloud Connect and Enterprise Trunking.
