## BUSINESS GROWTH

Scale, evolve and prepare for advances in healthcare management with tailored solutions that grow with your organization.

**SECURITY**

# Safeguard your reputation and patient data

New cyberthreats to patient privacy and to your care delivery systems emerge constantly, with an increasing number of network endpoints expanding your potential attack surface. It's crucial for your IT team to stay ahead of the risk and support HIPAA compliance. Find the help you need with our in-depth cybersecurity expertise and intuitive, flexible managed services. Spectrum Business security solutions are monitored 24/7/365 and kept up to date for you. We provide redundant layers of protection to help keep attacks from impacting your patients and your healthcare organization.

**REMOTE WORKFORCE**

# Adopt technology that keeps practitioners connected

Collaboration should happen naturally between healthcare practitioners, patients and administrators. We deliver communication and networking services that drive innovation across the care continuum and provide reliable access to the tools that empower medical staff. Spectrum Business workforce solutions include a full suite of technology services that securely support your operations with a 100% uptime service-level agreement guarantee.<sup>1</sup> These include voice and video calling, messaging, meetings and content sharing with our unified communications applications, as well as solutions that give remote staff secure access to your network wherever they work.

## PATIENT AND PROVIDER EXPERIENCE

# Exceed expectations with a trusted, national provider

Creating cohesive, consistent experiences across multiple platforms for your patients and practitioners can be challenging. Spectrum Business delivers compatible technology to manage this complexity, including high-performance connectivity with speeds up to 100 Gbps. Our flexible, scalable solutions seamlessly integrate internet and networking, voice, collaboration and TV services so your healthcare system can easily adapt to new opportunities for a better patient experience.

## BUSINESS CONTINUITY

# Build a plan and strengthen your resilience

Natural disasters, fires or even a fiber cut from nearby construction can have a devastating impact on delivering patient care. Ensure your network is resilient and reliable to keep your data safe and your healthcare system connected through the unexpected. Business continuity solutions from Spectrum Business are designed to minimize disruptions with proactive backup services and a 100% uptime service-level agreement guarantee.<sup>1</sup> Our solutions have the flexibility to meet your needs as usage increases and are reinforced by local technicians, available 24/7/365 to identify, deliver and implement the support you need.

**HEALTHCARE SYSTEMS GROWTH**

# Meet tomorrow's challenges in healthcare IT

Embrace your healthcare organization's advancement by adopting new technologies that empower your practitioners and your network resources to support positive patient outcomes. With Spectrum Business by your side, our flexible, collaborative approach can help you plan for the future. We tailor solutions to meet your goals, with the agility to adapt as conditions change. Starting with design and implementation, our certified experts will help you stay on top of emerging technologies and provide ongoing support.
