

# Purchasing made easy through the Ohio DAS cooperative purchasing program

Digital transformation and IT modernization are essential to creating a better citizen experience. Innovations and system efficiencies that can increase civic engagement and satisfaction require government agencies to have reliable, cost-effective, high-speed connectivity and a solid network foundation.

Procuring the essential network services and network solutions can be complex, especially for government agencies with limited IT resources. The Ohio Department of Administrative Services (DAS) has made it easier for counties, townships, municipalities and other political subdivisions<sup>1</sup> to procure the IT services they need to enhance the lives of their residents.

Through the Ohio DAS cooperative purchasing program (CPP), accessible via the OhioBuys online system, discounted rates and terms and conditions are pre-negotiated, which means public entities can more quickly and easily access the technology solutions they need.

## Reliable connectivity solutions

Three cost-effective Spectrum Enterprise® solutions are available from the Ohio DAS CPP. Pricing and contract details are available on the [Ohio DAS website](#).

- **Spectrum Business Internet®:** Choose a reliable, scalable internet service with speeds up to 1 Gbps while enhancing performance and productivity over coaxial cable.
- **Fiber Internet Access:** Increase on-site staff productivity and intra- and inter-agency collaboration with dedicated, symmetrical connectivity up to 100 Gbps.
- **Ethernet Services:** Meet ever-growing data needs by connecting departments across a municipal campus or across town with a fast, reliable wide area network (WAN) solution. Our high-performance fiber network accommodates large file transfers and public safety video feeds, with bandwidth up to 100 Gbps.

## Support you can count on.

Our services are backed by powerful service-level agreements (SLA) and support, including:

100% uptime SLA guarantee.<sup>2</sup>

20+ years of experience designing, implementing and managing IT solutions for state and local governments.

100%, 24/7/365 U.S.-based support.

A dedicated, locally based government account team.

Spectrum Enterprise is invested in Ohio.<sup>3</sup>

**2.84 million**  
residents served

**2,000+**  
communities served

**7,700**  
Ohio-based employees

**\$879 million**  
2023 capital investment

### A partner you can trust

In addition to the right network solutions, you need a strategy and a trusted partner for digital transformation to be successful. Charter Communications, under the Spectrum Enterprise brand, understands no two governments are the same. This awareness has helped us to successfully serve local and state governments nationwide for over two decades.

We put the needs of our clients first and are committed to ensuring an exceptional client experience with dedicated local account teams and technicians, 100%, 24/7/365 U.S.-based support and our industry-leading package of service-level agreements (SLAs), including an SLA that guarantees 100% uptime.<sup>4</sup> Spectrum Enterprise can help enhance network services to enable your community to thrive.

Partner with us to deliver high-performance internet and network services to enable Ohio communities to thrive.
