

# Broadcaster Video services

## Transmit video feeds more efficiently with a fully monitored service

Broadcasters with programming on Spectrum TV cable channels can also take advantage of our fast, private fiber network to transmit their video feed. Broadcaster Video services are a reliable and fully supported solution for local and national organizations.

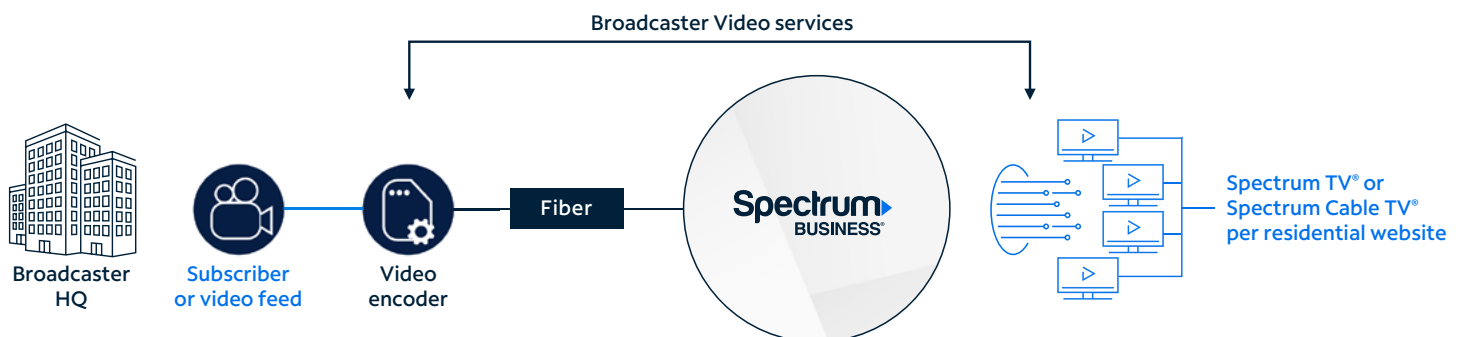

### Features

- **Enhance your user experience:** Ensure constant performance by delivering your programming to us over fiber.
- **Connect with your audience:** Effectively deliver broadcast programming or content.
- **Streamline management:** Count on end-to-end service and support for your video transport.

### Benefits

- **Increase reliability:** Enhance resiliency by adding a fiber pathway.
- **Simplicity:** Expert installation and management from a provider with 100%, 24/7/365 U.S.-based support.
- **Clarity:** Simple and transparent pricing.
