

TV Streaming Access

Effortlessly provide streaming video entertainment across your organization.

Spectrum Enterprise TV Streaming Access offers over 200 available channels of live TV, including local news and sports and a large on-demand library with up to 40,000 movies. It is delivered to popular streaming devices and is accessible anywhere there's an authenticated internet connection.

To enjoy the flexibility of video entertainment where and how you want it, download the app to a supported device or use a web browser to access streaming content. Spectrum Enterprise delivers programming from our content delivery network to your location via a highly reliable, private and dedicated IP connection. There is no network equipment to buy and maintenance is included in one, predictable and transparent monthly charge.

Enhance your viewing experience with live and on-demand streaming video that can be watched anywhere at your location.

Top benefits:

- **User-friendly:** Simply download the Spectrum Enterprise® TV app and connect to an authenticated internet connection to watch videos on iOS® and Android™ mobile devices, tablets, computers and on TVs via Apple TV® or Roku TV™ devices.
- **Wide variety of programming!** More than 200 available channels of live TV featuring entertainment, news, sports, Spanish-language and international programming in addition to a large on-demand library. See our programming bundles and packages at enterprise.spectrum.com/channels.
- **Easy to use design and features:** Popular features include an easy keyword search, guide filters, sorting and favorites functionality.
- **Cost-effective and reliable:** No coax wiring or rewiring is required and no client-purchased head-end and transcoding equipment are needed. The service is delivered from our content delivery network via a private and dedicated IP connection, which is not susceptible to weather-related disruptions.

1. Certain content may not be available in designated areas of a facility.
