

SpectrumU TV

Stay ahead of student viewing trends and enrich the student experience by offering streaming video services.

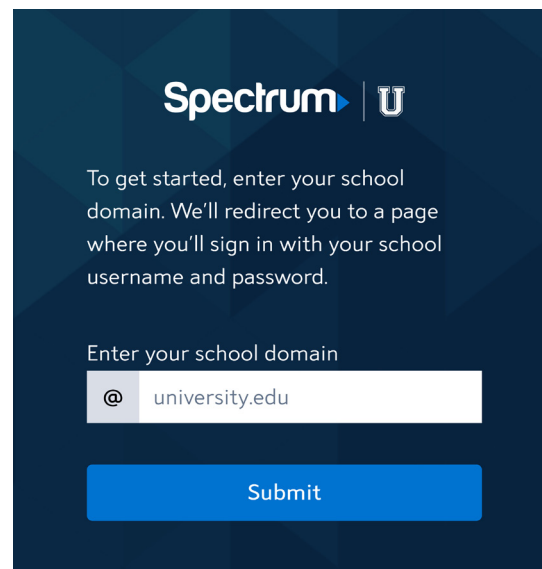

SpectrumU® lets colleges and universities deliver the video programming students want to watch — anywhere, anytime on personal devices. The service has over 200 available channels of live TV featuring entertainment, news and sports programming and a large on-demand library. In addition, students can access up to 80 TV channel apps (such as Max, Bravo, DisneyNOW, ESPN and Paramount+) using their university credentials.¹

Video programming is delivered from our content delivery network to popular devices via a private and dedicated IP connection. This results in reliability and cost savings on equipment and maintenance. We also offer local account executives, local technicians and round-the-clock U.S.-based support.

Top benefits:

- **Flexible viewing options:** Watch via iOS or Android mobile devices, as well as on tablets, laptops or desktops. It's also available on Apple TV, Chromecast² and Roku devices.
- **Wide variety of programming:** Enjoy more than 200 channels of live TV featuring entertainment, news and sports programming in addition to a large on-demand library. See our programming bundles and packages at enterprise.spectrum.com/channels.
- **User-friendly design and features:** Experience popular features including an easy keyword search, guide filters, parental controls, sorting and favorites functionality. Optional cloud DVR lets students record up to 20 shows to watch anytime.
- **Easy access single sign-on:** Simply connect via the SpectrumU app or a browser, enter the school's email domain and login using existing university credentials.
- **Cost-effective:** There's no coax wiring or rewiring required and no head-end or transcoding equipment to purchase or maintain.

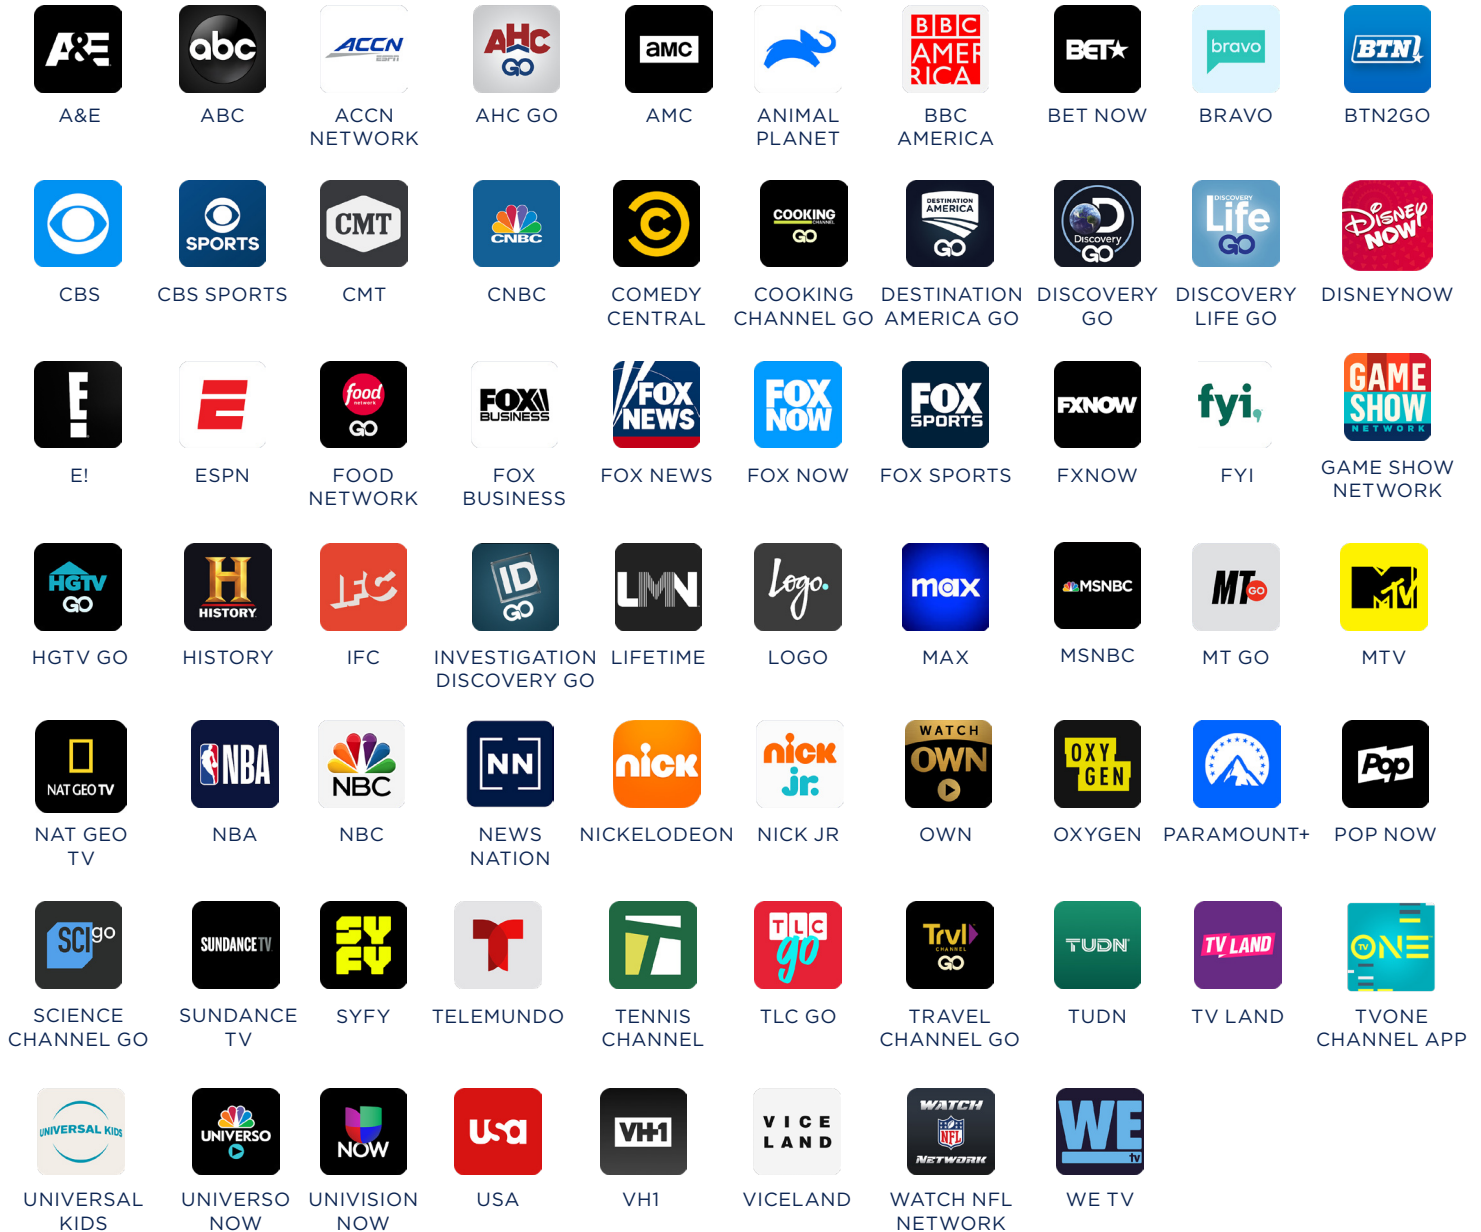

Improve the student experience, reduce maintenance costs and streamline operations with SpectrumU.

The SpectrumU interface is intuitive and easy to navigate.

1. University must subscribe to the associated TV channel. Not all programmer apps are accessible with SpectrumU subscriptions.
2. If your school requires a webpage to complete the logon process for its network, you may not be able to use Chromecast.

Up to 80 TV channel apps are available. This sampling does not include regional channel apps.
